Transcultural Counselling

Course Description:

This course is designed for counsellors, counsellor educators, and students who wish to expand their practice and customize their approach, internationally or when serving their diverse client base locally.

- Gain fascinating insights into cross-cultural responsiveness
- Improve self-awareness of personal values and biases
- Add to your knowledge of the counselling profession worldwide
- Contributors from 20 countries

Course Objectives

Upon successful completion of this course, students will be able to:

- Communicate key components of a transcultural counselling approach and relevant theoretical frameworks/models;
- Apply learning from region-specific profiles to their own practice;
- Reflect on their personal definitions of counselling and culture;
- Set specific action items to guide future practice.
